

GOLDEN OPPORTUNITY IN CANADA'S FAR NORTH

BLUE STAR is focused on gold exploration and development within Nunavut, Canada. The Company owns the Ulu Gold Property lease, an advanced gold and silver project, and the highly prospective Hood River Property that is contiguous to the Ulu mining lease. With the recent acquisition of the Roma Project, Blue Star now controls 26,674 hectares (~103 sq mi) of highly prospective and underexplored mineral properties in the High Lake Greenstone Belt, Nunavut. A significant high-grade gold resource exists at the Flood Zone deposit (Ulu lease), and numerous high-grade gold occurrences and priority targets occur throughout the Ulu, Hood River and Roma Projects.

bluestargold.ca

INVESTMENT HIGHLIGHTS

1. Clean balance sheet. Management and board ownership of ~50%, a recent OTCQB listing in the U.S. and a modest market cap of ~USD\$26 million
2. The company holds underexplored and highly prospective district scale projects in Nunavut, Canada, one of the last mineral exploration frontiers, with the potential to build a multi-million-ounce gold resource
3. Strong management team with a history of discovery in Nunavut and northern Canada
4. Significant high-grade gold resource at the Flood Zone deposit (Ulu Project), and numerous high-grade gold occurrences throughout the Company's Ulu, Hood River and Roma Projects
5. A multi-prong exploration program is underway with two key focuses: infill and expansion drilling, and pipeline target review and development throughout our highly prospective landholdings

ABOUT NUNAVUT

Officially its own territory since 1999, Nunavut comprises broad land mass and much of the Arctic Archipelago. It's sparsely populated, but geographically vast. The Arctic Ocean lies to the north and Greenland, separated by a series of straits, to the east. Its only land boundaries are with Manitoba to the south and the Northwest Territories to the west. At more than 2,000,000 sq km (about 808,000 sq mi) Nunavut is larger than Mexico. In fact, if Nunavut were its own nation, it would rank 15th largest on the globe.

The entire territory is above the treeline, but there's abundant diversity in this Inuit land of about 40,000 people. It's all arctic, but there are rolling rock hills, flat tundra, and glacial mountain fjords. And animals galore. Nunavut is home to arctic fox, Canadian lynx, walrus, narwhal, muskox, whale, grizzly and, of course, polar bear.

The Nunavut economy relies on mining, oil, gas and mineral exploration, along with traditional hunting, fishing, and increasingly, tourism. There are major gold mines, also some copper, silver and until recently, diamonds. Territorial capital Iqaluit is on Baffin Island and hosts the annual Nunavut Mining Symposium.
